

Alexandria Department of Neurosurgery

Annual Summer Meeting

North Coast - Porto Marina

22-23 September 2011

Thursday 22-09-2011

2:00-5:00 pm: Registration

5:00-6:00 pm: Opening ceremony

6:00-7:30 pm: Session 1 (10 minutes for each talk)

- 1) Protocol based management of head injury. *Khaled Baseem (Cairo)*
- 2) Lateral supracerebellar infratentorial approach for pineal region tumours. *Hesham Abo El Enein (Alex)*
- 3) Endoscopic transnasal anterior approach for petrous apex cholesterol granuloma. *Ahmed Aly Ibrahim (Alex)*
- 4) Management of CPA tumours. *Ashraf Farid (Cairo)*
- 5) Prevalence of patent foramen ovale in adult brain abscess a series of 3 cases. *Ahmed Shakal (Tanta)*
- 6) Supraorbital keyhole approach for treatment of lesions of anterior skull base and around sella. *Haytham Elatrozy (Tanta)*

30 minutes discussion

7:30-9:00 pm: Session 2 (10 minutes for each talk)

- 1) Lumbar disc disease in paediatric population *Aly Abo- Madawy (Suez Canal)*
- 2) Microsurgical management of spinal intramedullary tumours *Ahmed Farhoud (Alex)*
- 3) Egyptian new invented expanded corpectomy cage for anterior approach in lumber and thoracic region. *Ahmed Yehia El husseiny (Zagazig)*
- 4) Scientific basis for a retrospective study. *Ahmed Yehia El husseiny (Zagazig)*

5) Outcome prognostic factors for recurrent lumbar disc herniation surgery.

Ahmed Zaher (Mansora)

6) Safety and feasibility of minimally invasive posterior lumbar fusion.

Mohamed Abdelbary (Alex)

30 minutes discussion

Friday 23-09-2011

10:00 am: Meeting of the Egyptian society of Neurosurgery

12:00 pm: Gomaa prayer

1:30 - 3:30 pm: Case Presentation and Video Session

- Case presentations (15 mins for each one)

1) Irreducible atlanto-axial dislocation. *Yasser Elbanna (Alex)*

2) Difficult spinal cases. *Hesham Elsaghir (Alex)*

15 minutes discussion

- Video session (20 mins for each one)

1) Stereotactic brain biopsy. *Osama Abdelaziz (Alex)*

2) Sylvian fissure dissection in difficult aneurysm. *Tamer Hassan (Alex)*

3) Surgery of intrinsic brain stem lesions. *Ahmed Farhoud (Alex)*

15 minutes discussion

6:00-7:30 pm: Session 3 (10 minutes for each talk)

- 1) Surgery of hypertensive intracerebral haematomas. **Waleed Elsaadany (Alex)**
- 2) Endovascular management of chronic carotid cavernous fistula. **Tamer Hassan (Alex)**
- 3) Outcome of endovascular coiling of small and large intracranial aneurysm. **Hany Eldawoody (Mansora)**
- 4) Endovascular management of acute stroke. **Waseem hamed (Alex)**
- 5) Efficacy of ONYX in endovascular AVM embolization. **Ahmed Sultan (Alex)**
- 6) Rare giant aneurysm case presenting with proptosis and bleeding per ear. **Tamer Ebrahim (Alex)**

30 minutes discussion

7:30-8:30 pm: Session 4 (10 minutes for each)

1) Surgical evacuation of neonatal intracerebral haematomas due to vitamin k deficiency *Ashraf Shaker (Mansora)*

2) Intraparenchymal hydrocephalus *Khaled Baseem (Cairo)*

3) *Minimally invasive craniosynostosis without use of helmet*

Khaled Baseem (Cairo)

4) *Sodium in neuroanaesthesia* *Mahmoud Nassar (Alex)*

20 minutes discussion
